

HARTMANN

Baktolin® pure

Mild, fragrance- and colorant free washing lotion with good skin tolerance for normal skin.

Advantages at a glance

- Cleanses with a mild formula
- Skin neutral pH-value
- Contains skin-mild tensides
- Suitable also for sensitive skin
- Free of fragrances and colorants
- Free of soap and parabenes

Application

Baktolin® pure is a mild, fragrance and colorant free washing lotion with very good skin compatibility. With a pH value of 5.5 and skin-mild tensides which preserves the sensitive protective acid mantle of the skin, the washing lotion is well suited for the slightly acidic environment of the skin and supports its natural acid mantle.

Modern, active ingredients and gentle preservatives make Baktolin® pure a more effective choice than conventional soap surfactants. The washing lotion is well suited for the sensitive skin due to its fragrance and colorant free formula, as well as for the frequent daily usage and in food processing areas..

Baktolin® pure

Usage properties

Baktolin® pure is a gentle and pleasantly mild cleanser. Its fragrance and colorant-free characteristics make it particularly well suited for people with sensitive skin, allergies and chronic dermatoses as well as people who work with sensitive goods such as food products.

Composition

Aqua, Sodium Laureth Sulfate, Sodium Chloride, PEG-7 Glyceryl Cocoate, Cocamidopropyl Betaine, Glycerin, Disodium Laureth Sulfosuccinate, Sodium Benzoate, PEG-120 Methyl Glucose Dioleate, Sodium Citrate.

Areas of application

Baktolin® pure is suitable for the use in the following areas:

- In all hospital areas and medical practices / centers
- In nursing homes
- Suitable for home nursing
- In food processing areas
- In industrial kitchen
- In the industry and laboratories

Directions for use

Using a dispenser or a bottle with mounted pump distribute a sufficient amount of Baktolin® pure on to hands or skin, foam up with water and rinse thoroughly. Hands or skin should be dried off thoroughly.

Appearance	colourless
Density	1.04 g/cm ³
pH value	5.5
Shelf life after opening	12 months.

Baktolin® – skin-friendly wash lotions

Frequent hand washing can lead to skin irritation. The skin compatibility of Baktolin® wash lotions was therefore examined by means of an epicutaneous test. In this test, the product is applied to the skin of test persons, mostly on the back, and covered with a patch for 24 hours. After the patch is removed, the condition of the skin is visually assessed over a period of 72 hours.

In independent expert reports, very good to excellent skin tolerance was proven for Baktolin® pure and Baktolin® sensitive [1,2].
