

HARTMANN

Sterillium® med

The hand disinfectant with virucidal efficacy within hygienic hand disinfection. Featuring the proven Sterillium® skincare complex. Colourant- and fragrance-free.

Image may vary according to local requirements

Application

Sterillium® med is suitable for hygienic and surgical hand disinfection. Sterillium® med is free from colourants and fragrances and thus is particularly suitable for users with sensitive skin.

Thanks to its highly efficient formula, Sterillium® med provides full virucidal activity incl. Norovirus within hygienic hand disinfection and thus is ideally suitable for year round infection prevention.

Directions for use

Hygienic hand disinfection: Apply sufficient amount (min. 3 ml) of undiluted hand disinfectant to the cupped hand so that all areas of the hands can be wetted thoroughly and completely. Carefully rub in hand disinfectant for 30 seconds – ensure to cover all areas of skin.

Surgical hand disinfection: Thoroughly rub Sterillium® med into hands and forearms up to the elbows. When treating hands, pay particular attention to fingertips, palms and thumbs. Hands and forearms are to be kept wet during the entire application time of 1.5 minutes.

Characteristics

- comprehensive efficacy, including virucidal activity with application time for hygienic hand disinfection
- increases skin hydration, preserves skin elasticity and the natural smoothness of the skin
- all-year-product with quick efficacy
- maintains the natural pH value of the skin
- colourant- and fragrance-free
- with proven skin care complex
